**Tools, Actions & Solutions
for an Energy Independent Kaua`i**

Sponsorship Application Packet

** Increase your company's visibility and exposure through Sponsorship Opportunity and Benefits at the high-visibility, high-powered 2008 Kaua`i Renewable Energy Conference!*

CONFERENCE SPONSORSHIP

First the first time on Kaua`i, the 2008 Kaua`i Renewable Energy Conference brings together local and national business, government and community leaders along with the general public to learn, network, and discuss the issues shaping Kaua`i's energy market. The theme this year is "Think Globally, Act Locally," as we send out a call-to-action and explore the vast opportunities available to make Hawai`i and Kaua`i a model of efficient, clean energy for the world.

This dynamic event will bring to light the status and challenges in developing renewable energy based businesses, explore the opportunities to enhance our legislative and regulatory processes to encourage this sector, educate consumers on resources and techniques to reduce their energy costs, and develop an action plan to bring the Garden Island closer to a cleaner, more secure, sustainable energy future.

Supporting this initiative as a Sponsor of this conference provides you frontline exposure to this sector's key players and consumers. With Hawai`i's 99% dependency on foreign fossil fuels driving the cost of electricity and fuel costs sky high, the time is NOW for organizations to position themselves to take part in helping solve this energy crisis.

The Conference offers a variety of sponsorship opportunities to help you get recognized and be a part of the Program – from sponsoring keynote speakers and panel sessions to overall sponsorship of this exciting one and a half day event. Other organizations may choose to sponsor a refreshment break or giveaway items, providing a creative spotlight of exposure on your organization.

Please check out the following Session Sponsorship and General Sponsorship Opportunities and join the ranks of Sponsors already lined up – such as the **U.S. Department of Energy, County of Kaua`i Office of Economic Development, and Kaua`i Island Utility Cooperative** – all partners committed to *Think Globally, Act Locally* and push toward an Energy Independent Kaua`i.

Presented by: *Kaua`i Economic Development Board*

In Partnership with: *U.S. Department of Energy, County of Kaua`i Office of Economic Development, and KIUC*
